

MARSHALL POLICE CRIME LAB REPORT

MARSHALL CRIME LAB
36 NORTH PEACE BLVD

Date: 11/7/09

Case No.: RV-0098889

Inventory No: N7665561

Internal Crime Lab No: xqzzzx77

Report:

A chemical analysis was conducted on paint chip swabs provided by the Marshall P.D. There are no specific unique qualities regarding the swab. It was confirmed that the chemical make-up of the ink was an exact match, within a high degree of scientific certainty, with the 1/4 inch ink marker commercially sold as Chartpak CRIMSON P-82 (43). This marker is available in art supply houses, and is sold over the counter at local art supply houses in Marshall City.
