To Whom It May Concern:

I am very disappointed that you are charging me with Identification theft. I did nothing wrong, and I think you should listen to both sides before arresting a person and making them post bond. I have to go to court next week, and I hope someone will listen to me.

This D. Diamonte said it was OK for me to use that credit card, and should admit to same.

That Oz person should be investigated, too. That place treats people like slaves, and they are cheated out of their wages all the time. If you don't stand up for your rights, you get no where with Oz.

I am happy to cooperate with you.

I will be in court next week.
